Product description

SPARTUS® PROFLEX TIG 20HD HAND TORCH

SPARTUS® ProFLEX TIG torches manufactured in Poland are characterized by high quality of components used and solid workmanship. A wide selection of torch bodies, handles, microswitches and cable packages allows you to meet the expectations of even the most demanding welders.

CABLES

In the production of **SPARTUS® ProFLEX** handles, a professional cotton braided hose, made in the USA, was used. The high-

density outer braid provides the highest level of flexibility, both at high and low temperatures.

CABLE PACKAGES

In **SPARTUS® ProFLEX** holders, 3 types of cable covers can be used. The "T" and "U" packages are manufactured in a textile-polyester cover, while the "X" package is made in a textile-rubber cover. The "U" and "X" packages also have a one-meter section of leather behind the handle.
