Product description

SPARTUS® EASYTIG 9V / 17V torch with valve and handle control

The **SPARTUS® EasyTIG** series offers classic welding handle solutions designed with simplicity and ergonomics in mind.

TORCH BODY

Easy series torches with a valve come with a standard torch body: SPE9V, SPE17V.

HANDLE

The handle with a microswitch, dedicated for use with devices equipped with control connector for non-contact ignition.

CABLE PACKAGE

In the **EasyTIG torches with a valve and control in the handle**, a package of cables is available, marked with the symbol D in the rubber cover or X, which is in a textile and rubber cover with a section of leather behind the handle. The packages are equipped with a basic set of consumables.

CONNECTIONS

A wide range of connections allows for the use of **SPARTUS® EasyTIG torches** with valve and handle control with the most popular welding devices available on the European market.

The presented handle image in the article is for illustrative purposes only and depends on the options selected in the configurator and related products.
