Product description

SPARTUS® EASYTIG TORCH 17V with valve

The **SPARTUS® EasyTIG** series is a classic solution of welding torches designed with simplicity and ergonomics in mind.

TORCH BODIES

The torch body equipped with a valve allows for smooth regulation of the gas stream depending on the specific requirements of the welder.

HANDLES

Thanks to the traditional, round handle, the EasyTIG torch with a valve is significantly relieved, which results in easier guiding of the torch and less burden for the user.

WIRE PACKAGE

In **EasyTIG** torches with a valve for a classic round handle, we offer a rubberized cover of the cable package, marked with the D symbol.

CONNECTIONS

Torches made on round handles are available with an SK25 or SK35 current connection, equipped with a two-meter hose terminated with a 1/4" nut.

The picture of the handle presented in the article is illustrative and depends on the options selected in the configurator and related products.

Technical details

Rating	150A DC 115A AC
Electrode diameter	0.5 - 3.2mm
Gas flow rate	7 - 15l/min
Duty cycle	35%
Cooling type	gas
Standard	17 [large consumables]
Length	4m
Control plug	SK35, 2m hose, 1/4 nut
