Product description

SPARTUS® PROFLEX TIG 155F TORCH

SPARTUS® ProFLEX TIG torches manufactured in Poland are characterized by high quality of components used and solid workmanship. A wide selection of torch bodies, handles, microswitches and cable packages allows you to meet the expectations of even the most demanding welders.

CABLES

In
the

production of SPARTUS® ProFLEX torches, a professional cotton braided hose, made in the USA, was used. The high-density outer braid provides the highest level of flexibility, both at high and low temperatures.

CABLE PACKAGES

In SPARTUS® ProFLEX holders, 3 types of cable covers can be used. The „T” and „U” packages are manufactured in a textile-polyester cover, while the „X” package is made in a textile-rubber cover. The „U” and „X” packages also have a one-meter section of leather behind the handle.

TOOLBOX

SPARTUS® ProFLEX torches are equipped with a handy box containing consumables (toolbox).

REPLACEABLE TORCH HEADS

Replaceable SPARTUS® torch heads are an innovative solution that allows for instant replacement of the head, depending on the needs - size of the head, angle of inclination. In the SP155F holders, heads of the standard SP24/24W, SP9/20 or SP17/18/26 can be used interchangeably.

WIDE CHOICE OF CONNECTIONS

Thanks to the wide range of connections, SPARTUS® ProFLEX torches can be used with many market-leading welding devices.

The picture of the handle presented in the article is illustrative and depends on the options selected in the configurator and related products.
