Product description

SPARTUS® LASER SAFETY GLASSES - ENSURE YOUR SAFETY

In accordance with industry standards, SPARTUS® laser safety glasses provide a high class of protection, minimizing the risk of exposure to harmful laser radiation. Thanks to specially designed filters, the glasses provide protection in various wavelength ranges, protecting the eyes against harmful radiation across a wide spectrum. The ergonomic design of the glasses makes them comfortable to wear, even for long periods of work. Made of light materials, they provide freedom of movement and comfort of use.
