Product description

Vortex Eco extraction arms

Vortex Eco arms are an economical solution in extraction technology. Made from flexible PVC and stretched over a sturdy internal support structure, they are intended for occasional use. Their main advantage is their low cost, making them an attractive choice for locations with occasional extraction needs. **Vortex Eco** arms are ideal for smaller workshops and hobbyist applications.

Technical details

Model	Standing
Reach	2m
Diameter	160mm
Nozzle	315mm
Flow	800-1000 m³/h
