Product description

SPARTUS[®] exhaust fans

SPARTUS[®] exhaust fans are designed to work with extraction devices and systems that remove contaminated air. Their aluminium rotors placed in metal coverings ensure high flow efficiency and a spark-free design. SPARTUS[®] fans are intended for transporting non-explosive and chemically non-aggressive gases at temperatures up to 40°C. These devices excel at removing smoke or dust, especially in universal localized extraction systems, with retractable exhaust duct mechanisms or slotted duct extracts.

Technical details

Model	-
Ventilator	T110
Inlet diameter	160mm
Outlet diameter	200mm
Flow	1900m³/h
Noise level	79 dB(A)
Power	1,1kW
Rotation speed	2800rpm

Protection class	IP54
Input	~3× 400V ± 10% 50 / 60 Hz
Weight	40kg
