## Product description

### SPARTUS® ER316LSi welding wire

SPARTUS® ER316LSi is a premium stainless steel welding wire engineered for welding austenitic stainless steels. Its unique composition ensures high-quality welds, making it ideal for industrial and food-grade applications where durability and aesthetics are essential.

Key features:

- **Smooth, uniform weld bead** – ensures an aesthetic and consistent finish.
- **Seamless weld transitions** – enhances weld toe blending, especially in fillet welds.
- **Optimized silicon content** – improves weld flow, quality, and overall appearance.

Applications:

- **Wide range of industrial applications** – ideal for projects requiring durability and aesthetic welds.
