Product description

SPARTUS® ER308LSi welding rod

SPARTUS® ER308LSi is a premium stainless steel TIG welding rod, designed for welding austenitic stainless steels. Its excellent mechanical and corrosion-resistant properties make it essential for a wide range of industrial applications.

Key features:

- **Outstanding corrosion resistance** - ensures strong, long-lasting, and reliable welds.
- **High mechanical strength** - delivers durable, quality, and aesthetically pleasing welds.
- **Versatile application** - compatible with various grades of austenitic stainless steels.

Applications:

- **Welding of 18%Cr / 8%Ni steels** - including AISI 304, 304L, and 308LSi.
- **Industrial fabrication** - perfect for welding components requiring superior corrosion resistance and durability.
