# T-308LSI-20-100

## Product description

# SPARTUS® ER308LSi welding rod

SPARTUS® ER308LSi is a premium stainless steel TIG welding rod, designed for welding austenitic stainless steels. Its excellent mechanical and corrosion-resistant properties make it essential for a wide range of industrial applications.

Key features:

- **Outstanding corrosion resistance** – ensures strong, long-lasting, and reliable welds.
- **High mechanical strength** – delivers durable, quality, and aesthetically pleasing welds.
- **Versatile application** – compatible with various grades of austenitic stainless steels.

Applications:

- **Welding of 18%Cr / 8%Ni steels** – including AISI 304, 304L, and 308LSi.
- **Industrial fabrication** – perfect for welding components requiring superior corrosion resistance and durability.

## Technical details

### Intended Use

**stainless steel**

Type	ER308LSi
Rod diameter	2.0mm
Weight	5kg
