# **Product description**

## SPARTUS® ER308LSi welding rod

SPARTUS® ER308LSi is a premium stainless steel TIG welding rod, designed for welding austenitic stainless steels. Its excellent mechanical and corrosion-resistant properties make it essential for a wide range of industrial applications.

Key features:

- Outstanding corrosion resistance ensures strong, longlasting, and reliable welds.
- **High mechanical strength** delivers durable, quality, and aesthetically pleasing welds.
- Versatile application compatible with various grades of austenitic stainless steels.

Applications:

nov.Meld

- Welding of 18%Cr / 8%Ni steels including AISI 304, 304L, and 308LSi.
- Industrial fabrication perfect for welding components requiring superior corrosion resistance and durability.

### **Technical details**

Intended Use

stainless steel
