Product description

SPARTUS® ER316LSi welding rod

SPARTUS® ER316LSi is a high-quality TIG welding rod made from stainless steel with a very low carbon content. This product is an excellent choice for precise welding tasks and for overlaying elements with a similar chemical composition.

Key features:

- **Low carbon content** – ensures high resistance to intergranular corrosion.
- **Optimized chemical composition** – delivers strong, durable, and aesthetically refined welds.
- **Versatile application** – suitable for a wide range of industrial welding and overlaying tasks.

Applications:

- **Welding stainless steels** – ideal for materials with a chemical composition similar to ER 316LSi.
- **Surface overlay** – effective in creating protective layers on steel elements.
