Product description

SPARTUS® ER316LSi welding rod

SPARTUS® ER316LSi is a high-quality TIG welding rod made from stainless steel with a very low carbon content. This product is an excellent choice for precise welding tasks and for overlaying elements with a similar chemical composition.

Key features:

- **Low carbon content** - ensures high resistance to intergranular corrosion.
- **Optimized chemical composition** - delivers strong, durable, and aesthetically refined welds.
- **Versatile application** - suitable for a wide range of industrial welding and overlaying tasks.

Applications:

- **Welding stainless steels** - ideal for materials with a chemical composition similar to ER 316LSi.
- **Surface overlay** - effective in creating protective layers on steel elements.
