Product description

SPARTUS® ER309LSi welding rod

SPARTUS® ER309LSi is a premium stainless steel TIG welding rod designed for joining different steel alloys and austenitic stainless steels. Engineered for demanding industrial applications, it ensures high-performance welds with superior durability and precision.

Key features:

- Versatile application suitable for a broad range of industrial welding tasks.
- **Durability and precision** ensures strong, aesthetic, and corrosion-resistant welds.

Applications:

- Austenitic stainless steel welding ideal for AISI 309LSi steel.
- Dissimilar steel joining ensures reliable connections between materials with different properties.
- Intermediate and buffer layer deposition- dedicated to work on 18%Cr / 8%Ni steels.
