Product description

SPARTUS® ER309LSi welding rod

SPARTUS® ER309LSi is a premium stainless steel TIG welding rod designed for joining different steel alloys and austenitic stainless steels. Engineered for demanding industrial applications, it ensures high-performance welds with superior durability and precision.

Key features:

- **Versatile application** – suitable for a broad range of industrial welding tasks.
- **Durability and precision** – ensures strong, aesthetic, and corrosion-resistant welds.

Applications:

- **Austenitic stainless steel welding** – ideal for AISI 309LSi steel.
- **Dissimilar steel joining** – ensures reliable connections between materials with different properties.
- **Intermediate and buffer layer deposition** – dedicated to work on 18%Cr / 8%Ni steels.

Technical details

Intended Use	stainless steel
Type	ER309LSi
Rod diameter	2.4mm
Weight	1kg
