

product code: 040-06-080HP
product ean: 5900391251188

High-Performance rotary burrs are designed to meet the most demanding applications in the machining industry. Thanks to the TiAlN coating, HP rotary burrs are highly resistant to high temperatures and oxidation. This coating provides the rotary burrs. These rotary burrs are especially recommended for use with hard steel alloys.

Cylinder rotary burr (without end cut) 16x25x6/69 040-06-160
Cylinder rotary burr (without end cut) 12x25x8/70 040-08-127
Cylinder rotary burr (without end cut) 16x25x8/70 040-08-160

Technical details

Type	cylinder
Diameter of the working part (D1)	8mm
The length of the working part (L2)	20mm

Total length (L1)	65mm
Pivot diameter (D2)	6mm
Use	for general use (especially for hard metal steel alloys)
