

product code: 041-06-100HP
product ean: 5900391251232

High-Performance rotary burrs are designed to meet the most demanding applications in the machining industry. Thanks to the TiAlN coating, HP rotary burrs are highly resistant to high temperatures and oxidation. This coating provides the rotary burrs. These rotary burrs are especially recommended for use with hard steel alloys.

Technical details

Type	cylinder with end cut
Diameter of the working part (D1)	10mm
The length of the working part (L2)	20mm
Total length (L1)	65mm
Pivot diameter (D2)	6mm

Use	for general use (especially for hard metal steel alloys)
