

product code: **NW9-53CS11B-24-KPL**
product ean: **5900391252215**

Set contains:

- NW598882B Gas insulator
- NW13N23 Collet
- NW45V44 Gas lens
- 54CD11B Gas nozzle + strainer

Product variants

| Index | Price |
|--|---------------------------------|
| CUPSYSTEM Black - 9/20 set gas nozzle CUP #11 [electrode 2.4] NW9-53CS11B-24-KPL | €23.64 / pc Net price |
| CUPSYSTEM Black - 9/20 set gas nozzle CUP #11 [electrode 1.6] NW9-53CS11B-16-KPL | €23.64 / pc Net price |

Product description

The **CUPSystem Black** sets are a versatile and advanced solution for TIG welding, currently providing the most effective gas shielding.

The gas nozzle with an innovative gas guidance system and precise screens ensures an even distribution of the gas shield, which is crucial for achieving high-quality welds. **CUPSystem Black** provides effective cooling of the weld area while reducing the likelihood of oxidation at the joint edges.

This comprehensive approach to improving gas distribution and cooling during welding can significantly impact the efficiency and quality of welding projects, making the **CUPSystem Black** sets a valuable tool for welders seeking precision and reliability in their work.

The **CUPSystem Black** sets are ideal for welding **stainless steel, titanium, inconel, and duplex**, and are widely used in the automotive industry, especially for welding sports exhaust systems.
