EMUCOOLANT- Coolant for CNC tables - 30l CNC-3050-30	€301.64 / opak VAT 23% €371.02 / opak

Product description

EMUcoolant is the highest quality synthetic cooling agent, oil-free, non-flammable, 100% biodegradable. The concentrate is a light brown liquid. Contains modified fatty acids, corrosion inhibitors, non-ionic and heterocyclic organic compounds, biocides and anti-foaming agents. The coolant significantly improves the precision and quality of machining, and at the same time speeds up the work process. It gives a longer tools life and extends the life of the equipment.
