## Product description

### SPARTUS® AeroClean Eco welding fume extractors

The **SPARTUS® AeroClean Eco** welding fume extractors are an efficient and economical solution for extracting air pollutants. Equipped with a flexible hose featuring a self-supporting internal structure, a wall mount bracket, and a high-performance fan, it ensures effective removal of airborne contaminants. Ideal for occasional welding tasks, it is designed for light and non-aggressive pollutants.

- **Lightweight Design:** The use of lightweight yet durable materials ensures convenient operation and easy installation.
- **Internal Support Structure:** The self-supporting hose structure guarantees stability, precise positioning, and system durability.
- **Easy and Stable Maneuvering:** The thoughtful design allows smooth and precise positioning of the arm in the desired location.

Applications:

- Welding tasks requiring occasional fume extraction
- Removal of light air pollutants
- Protecting workers' health and improving workplace conditions
