Product description

SPARTUS® Pneumatics piston compressors from the SP series are a line of professional compressors for applications in automotive, construction and industrial workshops - wherever durability and reliability are needed. Cast-iron, low-speed compressor units guarantee long-term and trouble-free operation. The low speed of the pump and their efficient cooling system allow to obtain good quality air from the very beginning.

Advantages of SPARTUS® compressors from SP series:

- cast iron, slow-running compressor pumps;
- high-class tooling;
- includes road wheels or shock absorbers.

Technical details

Tank	270l
Quantity of cylinders	3
Number of compression ratios	1
Performance for the suction side	530l/min
Exhaust	440l/min
Pressure	10bar
Engine power	3.0kW
Revolutions	1370rpm
Input	~3× 400V ± 10% 50 / 60 Hz
Weight	132kg

Dimensions	1650 x 660 x 1120mm
