

Product details: SPARTUS® screw compressor with a tank and built-in air dryer [500/270 5.5kW 400V 15bar]

product code: SP5.5BTD-500-15

Product variants

| Index | Price |
|--|------------------------------------|
| SPARTUS® screw compressor with a tank and built-in air dryer [500/270 5.5kW 400V 15bar] SP5.5BTD-500-15 | €6,894.36 / pc Net price |
| SPARTUS® screw compressor with a tank and built-in air dryer [270/270 4kW 400V 10bar] SP4BTD-270-10 | €5,307.98 / pc Net price |
| SPARTUS® screw compressor with a tank and built-in air dryer [550/270 4kW 400V 8bar] SP4BTD-550-8 | €5,833.21 / pc Net price |
| SPARTUS® screw compressor with a tank and built-in air dryer [700/270 5.5kW 400V 10bar] SP5.5BTD-700-10 | €6,894.36 / pc Net price |
| SPARTUS® screw compressor with a tank and built-in air dryer [800/270 5.5kW 400V 8bar] SP5.5BTD-800-8 | €6,894.36 / pc Net price |
| SPARTUS® screw compressor with a tank and built-in air dryer [700/270 7.5kW 400V 15bar] SP7.5BTD-700-15 | €7,611.95 / pc Net price |
| SPARTUS® screw compressor with a tank and built-in air dryer [1000/270 7.5kW 400V 10bar] SP7.5BTD-1000-10 | €7,611.95 / pc Net price |
| SPARTUS® screw compressor with a tank and built-in air dryer [1150/270 7.5kW 400V 10bar] SP7.5BTD-1150-10 | €7,611.95 / pc Net price |
| SPARTUS® screw compressor with a tank and built-in air dryer [1150/270 7.5kW 400V 8bar] SP7.5BTD-1150-8 | €7,611.95 / pc Net price |

Product description

Advantages of the device:

- reliable screw airends by global manufacturers (GHH RAND) designed for continuous operation,
- asymmetric design rotor's profiles to generate maximum power and performance at minimum energy cost,
- low-noise operation (72 dB),
- belt drive enabling easy modification of performance and maximum pressure by changing the pulley ratios,

- simplified access to maintain the airend,
- microprocessor controller with idle run function,
- a tank dedicated to the compressor power, with a capacity of 270 or 500l, ensuring uninterrupted transmission of the medium to the installation
- built-in refrigeration air dryer with a set of pre-filters to ensure excellent quality of the working medium.

Technical details

| | |
|-------------------|------------------------|
| Pressure | 15bar |
| Capacity | 500l/min |
| Power | 5.5kW |
| Drive | belt |
| Loudness | 72dB |
| Plug | 1/2" |
| Weight | 330mm |
| Dimensions | 1650x680x1495mm |
| Tank | 270l |
