

Product details: SPARTUS® screw compressor with a tank [700/270 7.5kW 400V 15bar]

product code: SP7.5CT270-700-15

Product variants

Index	Price
SPARTUS® screw compressor with a tank [700/270 7.5kW 400V 15bar] SP7.5CT270-700-15	€6,790.99 / pc Net price
SPARTUS® screw compressor with a tank [450/270 4kW 400V 10bar] SP4CT270-450-10	€5,658.96 / pc Net price
SPARTUS® screw compressor with a tank [550/270 4kW 400V 8bar] SP4CT270-550-8	€5,658.96 / pc Net price
SPARTUS® screw compressor with a tank [450/500 4kW 400V 10bar] SP4CT500-450-10	€5,801.24 / pc Net price
SPARTUS® screw compressor with a tank [550/500 4kW 400V 8bar] SP4CT500-550-8	€5,801.24 / pc Net price
SPARTUS® screw compressor with a tank [700/270 5.5kW 400V 10bar] SP5.5CT270-700-10	€6,166.57 / pc Net price
SPARTUS® screw compressor with a tank [800/270 5.5kW 400V 8bar] SP5.5CT270-800-8	€6,166.57 / pc Net price
SPARTUS® screw compressor with a tank [700/500 5.5kW 400V 10bar] SP5.5CT500-700-10	€6,308.85 / pc Net price
SPARTUS® screw compressor with a tank [800/500 5.5kW 400V 8bar] SP5.5CT500-800-8	€6,308.85 / pc Net price
SPARTUS® screw compressor with a tank [1000/270 7.5kW 400V 10bar] SP7.5CT270-1000-10	€6,790.99 / pc Net price
SPARTUS® screw compressor with a tank [1150/270 7.5kW 400V 8bar] SP7.5CT270-1150-8	€6,790.99 / pc Net price
SPARTUS® screw compressor with a tank [700/500 7.5kW 400V 15bar] SP7.5CT500-700-15	€6,930.63 / pc Net price
SPARTUS® screw compressor with a tank [1000/500 7.5kW 400V 10bar] SP7.5CT500-1000-10	€6,930.63 / pc Net price

SPARTUS® screw compressor with a tank [2150/500 15kW 400V 8bar] SP15CT500-2150-8	€8,302.41 / pc Net price

Product description

Advantages of the device:

- reliable screw airends by global manufacturers (GHH RAND) designed for continuous operation,
- asymmetric design rotor's profiles to generate maximum power and performance at minimum energy cost,
- low-noise operation (71 dB),
- belt drive enabling easy modification of performance and maximum pressure by changing the pulley ratios,
- simplified access to maintain the airend,
- extensive function controller,
- an option of remote control of compressor,
- energy-saving operation mode (start of electric motor using start-delta circuit diagram; operation under load; temporary shut-off when no compressed air is available; exclusion of idle phases; energy consumption adapted to actual compressed air demand),
- electrically adjustable parameters (temperature of the air-oil mixture; compressed air pressure; "Emergency stop" button and device parameter control button),
- failure protection by means of emergency stop of the compressor, preceded by warning messages,
- automatic maintenance information messages; multi-level control system to eliminate unauthorized access to manipulate compressor parameters; control of non-volatile memory of the operating system and operating time in different operating systems, list of emergency shutdowns and maintenance work performed,
- a tank dedicated to the compressor power, with a capacity of 270 or 500l, ensuring uninterrupted transmission of the medium to the installation.

Technical details

Pressure	15bar
Capacity	700l/min
Power	7.5kW
Drive	belt
Loudness	71dB
Weight	345kg
Dimensions	1270x680x1585mm
