Product description

SPARTUS® Pneumatics piston compressors from the SP series are a line of professional compressors for applications in automotive, construction and industrial workshops - wherever durability and reliability are needed. Cast-iron, low-speed compressor units guarantee long-term and trouble-free operation. The low speed of the pump and their efficient cooling system allow to obtain good quality air from the very beginning.

Advantages of SPARTUS® compressors from SP series:

- cast iron, slow-running compressor pumps;
- high-class tooling;
- includes road wheels or shock absorbers.

Technical details

Tank	50l
Quantity of cylinders	2

Number of compression ratios	1
Performance for the suction side	420l/min
Exhaust	340l/min
Pressure	10bar
Engine power	2.2kW
Revolutions	1430rpm
Input	~1× 230V ± 10% 50 / 60 Hz
Weight	65kg
Dimensions	850x400x770mm
