## Product description

### USE THE SPACE FOR MORE EFFECTIVE WORK OFFERED BY FERROS TABLES!

- **EN-GJL-300 CAST IRON**  
The casting of the top is made of EN-GJL-300 high strength cast iron characterized by high wear resistance.
- **25mm TABLE TOP**  
The table top with a thickness of 25 mm guarantees the durability of the table and resistance to mechanical damage.
- **MILLIMETRIC SCALE**  
The applied millimeter scale facilitates precise assembly of the element to be processed.
- **3D SIDE**  
It allows to expand the working surface and joining the table tops.
- **D28 SYSTEM**  
Drilled and chamfered holes 28mm.

# Technical details

|                            |  |
|----------------------------|--|
| Size of the work surface   | 2400 x 1200 x 200mm                          |
| Made                       | casted                                       |
| Material                   | EN-GJL-300 cast iron acc. to EN 1561         |
| Table top thickness        | 25mm   |
| Table horizontal precision | 0.1/1000mm                                   |
| Table vertical precision   | 0.1/200mm                                    |
| Standard                   | D28 (drilled and milled holes 28mm diameter) |
| Carrying capacity          | 2000kg/leg                                   |
| Type of leg                | with foot                                    |
| Leg length                 | 550mm  |
| Number of legs             | 6pcs.  |
| Total table height         | 800mm  |
| Table top weight           | 960kg  |
