Product description

The **SPARTUS® Pro 430XT** welding helmet is designed to protect the welder's eyes and face from harmful radiation and welding spatters. It is perfect for MIG / MAG, TIG and MMA welding. Additionally, it also has a grinding option.

The Pro 430XT welding helmet has an automatic filter with the **highest optical class 1/1/1/1** and a **very large field of view of 100x73mm**. Fast lens reaction time - 1/30,000s is guaranteed thanks to the use of 4 very sensitive sensors, which is an important factor while welding with low currents. The preview of the view is presented in real colors **(true color)**.

The filter enables **smooth adjustment of the darkness level** (DIN 4 -8 / DIN 9-13), sensitivity and delay time. The GRIND switch activates the grinding function. The filter is powered by solar cells and a replaceable battery. The "TEST" button on the internal panel allows you to check the correct functionality of the filter.

The SPARTUS® Pro 430XT welding helmet is made of durable and light material. The multi-stage adjustment of the headgear allows not only a perfect fit, but also the right distance between the filter and the welder's eyes. The large field of view and comfort of work allows to obtain a high quality weld. The product is intended for the most demanding welders.

Technical details

Usage	**MIG/MAG, TIG, MMA arc welding, grinding**
Active field of view	**100 x 73mm**
Filter size	**122 x 125 x 9mm**
Filter optical class	**1 / 1 / 1 / 1**
Sensors	**4**
Shading (standby)	**DIN 3.5**

Variable welding shades (operating)	**DIN 4 - 8 or DIN 9 - 13**
UV/IR protection degree	**to DIN16**
Light to dark switching time	**1/30 000s**
Delay control of light to dark switching time	**0.25 - 0.85s**
Power supply	**solar cells and lithium battery**
Grinding	**yes**
Adjustment knob and switch	**inside**
Weight	**500g**
