Curved tubes rotator SPARTUS® SP022-00-650	

Product description

SPARTUS® roller rotators ensure smooth rotation of long elements. The solutions used guarantee no jerks and jumps, regardless of the weight of the element. The devices are equipped with gear covers, which additionally protect against welding waste and dust.

Advantages:

- geared motors with high torque
- rollers covered with polyurethane with a hardness of 92°ShA

- roller spacing adjustment by means of a trapezoidal screw
