## Product description

The SPARTUS® rotary tables have been specially designed to work in a vertical position. Adjustable start at smooth rotation with smooth braking is due to the use of the highest class inverter-controlled motors. The compact and compact design of the device provides good access to the workpiece, allowing for precise and comfortable work.

Control interface: manual control panel + foot switch (on separate wires)

Advantages:

- inverter-based motor control
- control pendant for work control
- foot switch
- safety button

*With an additional payment, it is possible to change the control interface to manual control panel + two foot / right-left buttons (on separate wires) or integrated, free-standing control panel.*

## Technical details

|                |                           |
|----------------|---------------------------|
| Load capacity  | 1000kg                    |
| Diameter       | 500 - 1000mm              |
| Rotation speed | 0,12 - 1,2 / 0,5 - 5r/min |
| Input          | ~3× 400V ± 10% 50 / 60 Hz |
