Two-column two-axis swivels SPARTUS® 1000 SP025-00-001	€38,090.99 / pc Net price

Product description

Long and wide elements require specialized processing equipment, where SPARTUS® double-column two-axis rotary welding positioner are irreplaceable. The use of this class of equipment significantly increases the level of work safety and reduces its time. They are perfect for welding tanks, pressure vessels and trailer frames. It is possible to adjust the mounting brackets and the control interface to the individual needs of the customer.

Accessories available: columns in the mobile version, runways, rotation drive on both columns, nut wear sensor, laser rangefinders, automatic cable winders.

Technical details

Load capacity	3000kg
