

Product details: QUARTZSystem - lens CUP GUARD L #24 [for electrode 2.4mm]

product code: **NW9-38D44-24-KPL**
product ean: **5900391243848**

Set contains:

- NW598882 Gas insulator
- NW9-25T24 Collet
- NW9-45V44 Lens
- NW9-17-38A44 Brass adaptor
- NW9-17-38R44 O-ring
- NW9-17-38S24 Stainer
- NW9-17-38P44 Protective ring
- NW9-17-38D44 Gas nozzle

Product variants

Product description

QUARTZSystem is a modern solution for welding alloys of steel, stainless steel and aluminum. The special glass compound used in the production of QUARTZ nozzles is characterized by extraordinary resistance to high temperatures. The transparent nozzles provide excellent visibility and control of the arc during welding.

The new GUARD solution was developed to improve efficiency, durability and safety. The used brass adapter allows for better control of the gas and reduced scattering of it. In addition, the protective ring on the QUARTZ nozzles strengthens it and protects it from damage, making it even more durable.

The use of QUARTZSystem solutions guarantees high-quality welds. The welding process is more precise and accurate. In addition, the use of transparent nozzles improves the comfort of work, making it less tiring and more efficient.

Technical details

Diameter	2.4
Solution	lens
Application	9/20
