Product details: QUARTZSystem - lens CUP GUARD L #24 [for electrode 2.4mm]

product code: NW9-38D44-24-KPL product ean: 5900391243848

Set contains:

NW598882 Gas insulator

NW9-25T24 **Collet** NW9-45V44 **Lens**

NW9-17-38A44 Brass adaptor

NW9-17-38R44**O-ring** NW9-17-38S24**Stainer**

NW9-17-38P44 **Protective ring** NW9-17-38D44**Gas nozzle**

Product variants

QUARTZSystem - lens CUP GUARD L#24 [for electrode 1.6mm] NW9-38D44-16-KPL

Product description

QUARTZSystem is a modern solution for welding alloys of steel, stainless steel and aluminum. The special glass compound used in the production of **QUARTZ** nozzles is characterized by extraordinary resistance to high temperatures. The transparent nozzles provide excellent visibility and control of the arc during welding.

The new **GUARD** solution was developed to improve efficiency, durability and safety. The used brass adapter allows for better control of the gas and reduced scattering of it. In addition, the protective ring on the **QUARTZ** nozzles strengthens it and protects it from damage, making it even more durable.

The use of **QUARTZSystem** solutions guarantees high-quality welds. The welding process is more precise and accurate. In addition, the use of transparent nozzles improves the comfort of work, making it less tiring and more efficient.

Technical details

Diameter	2.4	
Solution	lens	
Application	9/20
