

product code: SP28W-24-12-PE

## Product variants

Index	Price
<b>HERMES 3D mobile lift welding table 2400 x 1200 (electrohydraulic version)</b> SP28W-24-12-PE	<b>€14,123.81 / pc</b> Net price
<b>HERMES 3D mobile lift welding table 2000 x 1000 (electrohydraulic version)</b> SP28W-20-10-PE	<b>€11,012.70 / pc</b> Net price

## Product description

**RELY ON COMFORT DURING WELDING, BY USING THE HERMES TABLES!**

### S355J2+N STEEL

Welding table top is made of S355J2+N steel grade, which is characterized by high strength and resistance to impact and deformation, and also provides protection against corrosion and weld spatter.

### 25mm TABLE TOP

The table top with a thickness of 25 mm guarantees the durability of the table and resistance to mechanical damage.

### MILLIMETRIC SCALE

The applied millimeter scale facilitates precise assembly of the element to be processed.

### D28 SYSTEM

Drilled and chamfered holes 28mm.

**The use of SPARTUS® mobile lift welding tables brings many benefits that translate into more effective and comfortable work.**

## HEIGHT PRECISE ADJUSTMENT

Setting the table top at the right customised height enhances the level of comfort during the performance of lengthy tasks, which has a significant impact on the work efficiency and welding quality. The working height of the lift (without the table top) is adjustable in the range from **525mm to 1325mm**.

## LIFT CAPACITY

Lifting system with a **high capacity of maximum 3000kg** (without the table top) allows you to load the unit with large-size elements and apply accessories to facilitate element assembly.

## SAFETY

The mobile lift is equipped with two protections:

## Technical details

### maintenance interlocking system

### limit switch - crushing protection

Size of the work surface	<b>2400 x 1200 x 200mm</b>
Made	<b>welded</b>
Material	<b>S355J2+N steel acc. to EN 10025-2</b>
Table top thickness	<b>25mm</b>
Table horizontal precision	<b>0.1/1000mm</b>

<b>Table vertical precision</b>	<b>0.1/200mm</b>
<b>Standard</b>	<b>D28 (drilled and milled holes 28mm diameter)</b>
<b>Supporting structure</b>	<b>Table lift</b>
<b>Nominal capacity (table top + details)</b>	<b>3000 kg</b>
<b>Carrying capacity with tabletop</b>	<b>2040 kg</b>
<b>Total table height</b>	<b>730 - 1200mm</b>
<b>Lifting</b>	<b>electro-hydraulic</b>
<b>Lifting speed</b>	<b>30 mm/s</b>
<b>Lowering speed</b>	<b>40 mm/s</b>
<b>Maximum number of lifting cycles</b>	<b>10/h</b>
<b>Table top weight</b>	<b>960kg</b>
<b>Jack weight</b>	<b>570kg</b>
<b>Input</b>	<b>~3× 400V ± 10% 50 / 60 Hz</b>
