# Product details: HERMES 3D mobile lift welding table 2400 x 1200 (electrohydraulic version)

product code: SP28W-24-12-PE

# **Product variants**

Index

HERMES 3D mobile lift welding table 2400 x 1200 (electrohydraulic version) SP28W-24-12-PE

HERMES 3D mobile lift welding table 2000 x 1000 (electrohydraulic version) SP28W-20-10-PE

# **Product description**

## **RELY ON COMFORT DURING WELDING, BY USING THE HERMES TABLES!**

#### S355J2+N STEEL

Welding table top is made of S355J2+N steel grade, which is characterized by high strength and resistance to impact and deformation, and also provides protection against corrosion and weld spatter.

#### 25mm TABLE TOP

The table top with a thickness of 25 mm guarantees the durability of the table and resistance to mechanical damage.

## **MILLIMETRIC SCALE**

The applied millimeter scale facilitates precise assembly of the element to be processed.

#### **D28 SYSTEM**

Drilled and chamfered holes 28mm.

The use of SPARTUS® mobile lift welding tables brings many benefits that translate into more effective and comfortable work.

NOV-WELD Generate: 2025-08-21 1/3

## **HEIGHT PRECISE ADJUSTMENT**

Setting the table top at the right customised height enhances the level of comfort during the performance of lengthy tasks, which has a significant impact on the work efficiency and welding quality. The working height of the lift (without the table top) is adjustable in the range from **525mm to 1325mm**.

#### LIFT CAPACITY

Lifting system with a **high capacity of maximum 3000kg** (without the table top) allows you to load the unit with large-size elements and apply accessories to facilitate element assembly.

#### **SAFETY**

The mobile lift is equipped with two protections:

# **Technical details**

## maintenance interlocking system

**limit switch** - crushing protection

# Size of the work surface 2400 x 1200 x 200mm

	- 100 X00 X -0011111
Made	welded
Material	S355J2+N steel acc. to EN 10025-2
Table top thickness	25mm
Table horizontal precision	0.1/1000mm

NOV-WELD Generate: 2025-08-21 2 / 3

Table vertical precision	0.1/200mm
Standard	D28 (drilled and milled holes 28mm diameter)
Supporting structure	Table lift
Nominal capacity (table top + details)	3000kg
Carrying capacity with tabletop	2040 kg
Total table height	725 - 1525mm
Lifting	electro-hydraulic
Lifting speed	30 mm/s
Lowering speed	40 mm/s
Maximum number of lifting cycles	10/h
Table top weight	960kg
Jack weight	570kg
Input	~3× 400V ± 10% 50 / 60 Hz

NOV-WELD Generate: 2025-08-21 3 / 3
