

## Product variants

Index	Price
<b>MAXIMUS 3D mobile lift welding table 2400 x 1200 (electrohydraulic version)</b> SP28N-24-12-PE	<b>€14,370.42 / pc</b> Net price
<b>MAXIMUS 3D mobile lift welding table 2000 x 1000 (electrohydraulic version)</b> SP28N-20-10-PE	<b>€11,364.80 / pc</b> Net price

## Product description

### GUARANTEE YOURSELF CONSTANT SUPPORT WITH MAXIMUS TABLES!

- **S355J2+N NITREDED STEEL**  
S355J2+N steel grade used to make the welding table gives high strength, impact and scratch resistance, whereas plasma nitrided welded top significantly enhances protection against corrosion and weld spatter.
- **25mm TABLE TOP**  
The table top with a thickness of 25 mm guarantees the durability of the table and resistance to mechanical damage.
- **MILLIMETRIC SCALE**  
The applied millimeter scale facilitates precise assembly of the element to be processed.
- **D28 SYSTEM**  
Drilled and chamfered holes 28mm.

The use of SPARTUS® mobile lift welding tables brings many benefits that translate into more effective and comfortable work.

- **HEIGHT PRECISE ADJUSTMENT**

Setting the table top at the right customised height enhances the level of comfort during the performance of lengthy tasks, which has a significant impact on the work efficiency and welding quality. The working height of the lift (without the table top) is adjustable in the range from **525mm to 1325mm**.

- **LIFT CAPACITY**

Lifting system with a **high capacity of maximum 3000kg** (without the table top) allows you to load the unit with large-size elements and apply accessories to facilitate element assembly.

- **SAFETY**

The mobile lift is equipped with two protections:

- **maintenance interlocking system**
- **limit switch** - crushing protection

The **SPARTUS® mobile lift welding tables** is a modern and convenient solution for professionals who value solid solutions that facilitate the work of welders.

## Technical details

Size of the work surface	<b>2400 x 1200 x 200mm</b>
Made	<b>welded with a protective coating (nitrided)</b>
Material	<b>S355J2+N steel acc. to EN 10025-2</b>
Table top thickness	<b>25mm</b>
Table horizontal precision	<b>0.1/1000mm</b>
Table vertical precision	<b>0.1/200mm</b>
Standard	<b>D28 (drilled and milled holes 28mm diameter)</b>
Nominal capacity (table top + details)	<b>3000 kg</b>
Total table height	<b>730 - 1200mm</b>
Lifting	<b>electro-hydraulic</b>
Lifting speed	<b>30mm/s</b>
Lowering speed	<b>40mm/s</b>
Maximum number of lifting cycles	<b>10/h</b>
Supporting structure	<b>Table lift</b>

---

<b>Table top weight</b>	<b>960kg</b>
<b>Jack weight</b>	<b>570kg</b>
<b>Input</b>	<b>~3× 400V ± 10% 50 / 60 Hz</b>

---
