## Product description

**Half mask respirator SPARTUS® 75G - COMBINING DURABILITY, LIGHTWEIGHT DESIGN AND MAXIMUM USER COMFORT.**

### HIGH QUALITY

The silicone used in the mask provides lightweight and excellent facial fit, giving a sense of softness. The material used ensures the product's durability and easy maintenance.

### COMFORT

Flexible and adjustable straps facilitate the fitting of the half mask to any face shape. This ensures that the product is comfortable and does not restrict movement.

### ERGONOMICS

The contoured SPARTUS® half mask does not limit the field of vision. It also allows for the use of other personal protective equipment such as safety glasses.

The downward-directed exhalation valve prevents the fogging of glasses.

### FILTRATION

The dual filtration used in the half mask reduces breathing resistance and balances the weight of the respirator. The replaceable filters make the half mask a reusable product suitable for various types of hazards. The bayonet mount of the filters allows for easy and quick replacement.

## CERTIFICATE

The SPARTUS® 75G half mask is compliant with the EN 140:1998 standard.
