

## **i** INFORMATION

**SPARTUS® Pneumatics** piston compressors from the SP series are a line of professional compressors for applications in automotive, construction and industrial workshops – wherever durability and reliability are needed. Cast-iron, low-speed compressor units guarantee long-term and trouble-free operation. The low speed of the pump and their efficient cooling system allow to obtain good quality air from the very beginning.

Advantages of **SPARTUS® Pneumatics** from SP series:

- cast iron, slow-running compressor pumps;
- a high-class tank, European production with necessary documents to be reported in the UDT;
- reliable Condor MDR with thermal protection;
- high-class tooling;
- includes road wheels or shock absorbers.

## **g** TECHNICAL PARAMETERS

| TANK [l] | CYLINDERS | COMPRESSION RATIOS | CAPACITY [l/min] | PRESSURE [bar] | POWER [kW] | INPUT [V] | WEIGHT [kg] | DIMENSIONS [mm] |
|----------|-----------|--------------------|------------------|----------------|------------|-----------|-------------|-----------------|
| 50       | 2         | 1                  | 420              | 10             | 2.2        | 400       | 78          | 850x450x770     |

**SPARTUS® Pneumatics** screw compressors are built using the best components provided by global industry leaders.
