

Professional
3D WELDING TABLES
D28 system

Ladies and gentlemen,

We have been introducing modern solutions in the welding industry for years. We focus on quality, durability and comfort of use. We value our clients' time and work. Thanks to the continuous development of the SPARTUS® brand, we have expanded our offer to professional welding tables. The tables are divided into three series, differing in the type of table surface so we can meet your expectations.

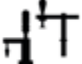

A wide selection of accessories will allow you to work with even the most demanding elements. The presented assortment will significantly streamline, speed up and optimize the welding process, even where special precision is required.

We hope that the quality and comfort of work with SPARTUS® welding tables will become an indispensable element of your everyday life.

FERROS

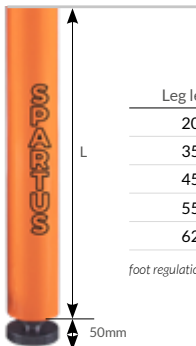

USE THE SPACE FOR MORE EFFECTIVE WORK
OFFERED BY FERROS TABLES!

CAST IRON TABLE TOPS

TABLE LEGS

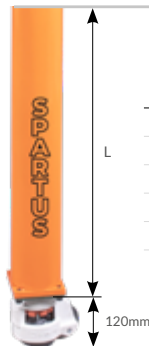

BASIC LEG

Leg length (L)	Table height
200mm	450mm
350mm	600mm
450mm	700mm
550mm	800mm
620mm	870mm

foot regulation max. +5cm

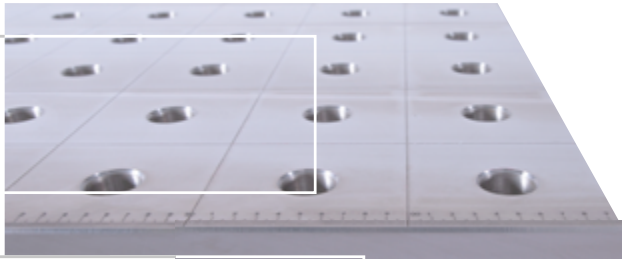

LEG WITH WHEEL

Leg length (L)	Table height
200mm	520mm
350mm	670mm
450mm	770mm
550mm	870mm
620mm	940mm

25mm TABLE TOP

The table top with a thickness of 25 mm guarantees the durability of the table and resistance to mechanical damage.

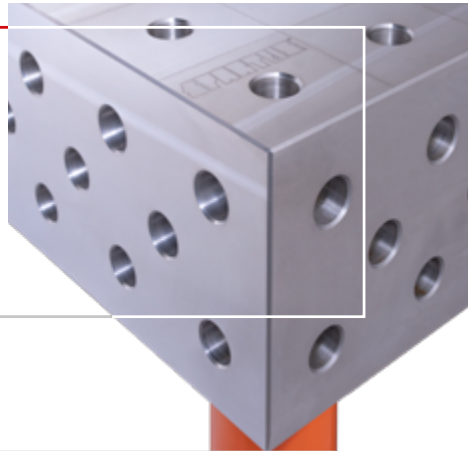

MILLIMETRIC SCALE

The applied millimeter scale facilitates precise assembly of the element to be processed.

EN-GJL-300 CAST IRON

The casting of the top is made of EN-GJL-300 high strength cast iron characterized by high wear resistance.

3D SIDE

It allows to expand the working surface and joining the table tops.

D28 SYSTEM

Drilled and chamfered holes 28mm.

FERROS WELDING TABLES WITH LEGS

Leg length (L) \ Size of the top	200mm	350mm	450mm	550mm	620mm

HERMES

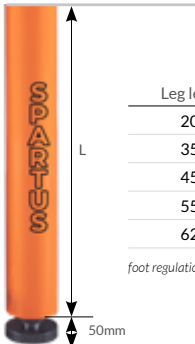

RELY ON COMFORT DURING WELDING,
BY USING THE HERMES TABLES!

TABLE LEGS

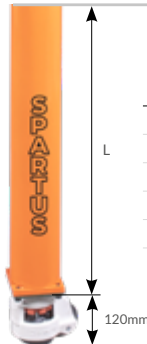

BASIC LEG

Leg length (L)	Table height
200mm	450mm
350mm	600mm
450mm	700mm
550mm	800mm
620mm	870mm

foot regulation max. +5cm

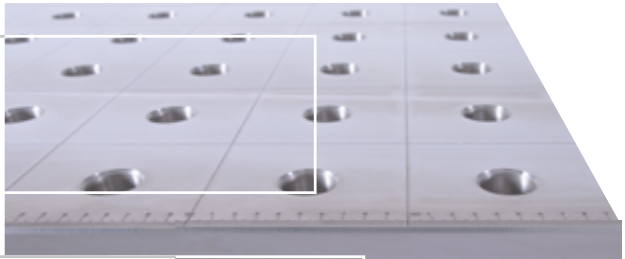

LEG WITH WHEEL

Leg length (L)	Table height
200mm	520mm
350mm	670mm
450mm	770mm
550mm	870mm
620mm	940mm

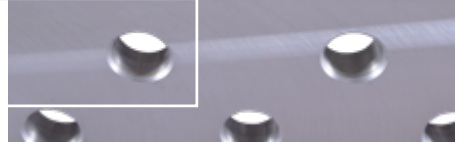

25mm TABLE TOP

The table top with a thickness of 25 mm guarantees the durability of the table and resistance to mechanical damage.

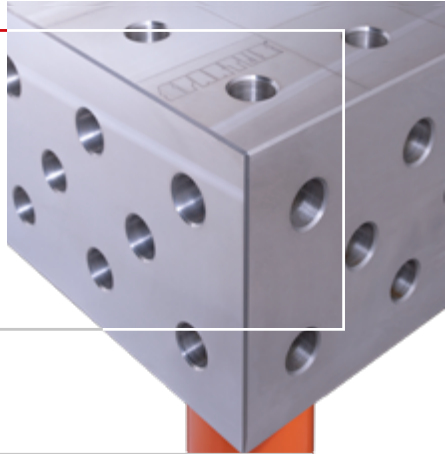

MILLIMETRIC SCALE

The applied millimeter scale facilitates precise assembly of the element to be processed.

S355J2+N STEEL

Welding table top is made of S355J2+N steel grade, which is characterized by high strength and resistance to impact and deformation, and also provides protection against corrosion and weld spatter.

3D SIDE

It allows to expand the working surface and joining the table tops.

D28 SYSTEM

Drilled and chamfered holes 28mm.

MAXIMUS

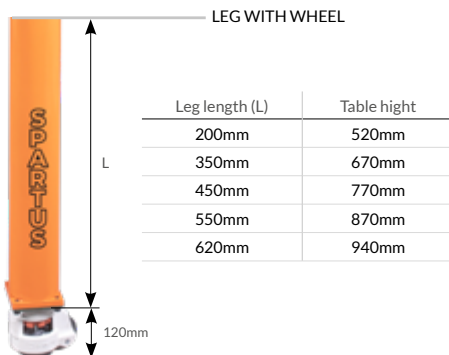

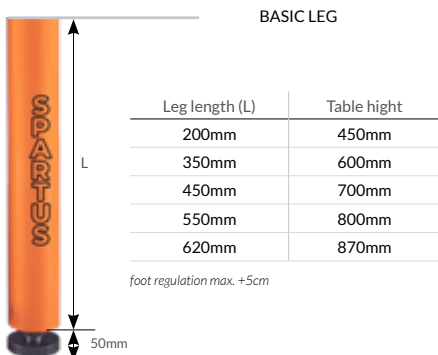

GUARANTEE YOURSELF CONSTANT SUPPORT
WITH MAXIMUS TABLES!

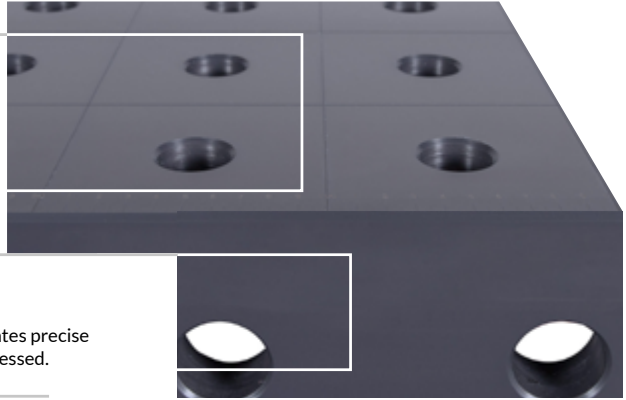

PLASMA NITRIDED WELDED TABLE TOPS

TABLE LEGS

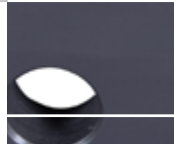

25mm TABLE TOP

The table top with a thickness of 25 mm guarantees the durability of the table and resistance to mechanical damage.

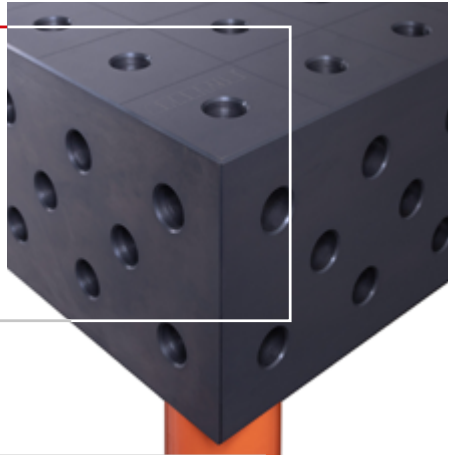

MILLIMETRIC SCALE

The applied millimeter scale facilitates precise assembly of the element to be processed.

S355J2+N NITREDED STEEL

S355J2+N steel grade used to make the welding table gives high strength, impact and scratch resistance, whereas plasma nitrided welded top significantly enhances protection against corrosion and weld spatter.

3D SIDE

It allows to expand the working surface and joining the table tops.

D28 SYSTEM

Drilled and chamfered holes 28mm.

INCREASE YOUR EFFICIENCY THANKS TO MODERN SOLUTIONS!

FERROS WITH ROTARY TABLE

ROTATING TABLE TOP 25mm

The table top with a thickness of 25 mm guarantees the durability of the table and resistance to mechanical damage. The table allows the table top to be rotated in both directions by 360°.

EN-GJL-300 CAST IRON

The casting of the top is made of EN-GJL-300 high strength cast iron characterized by high wear resistance.

D28 SYSTEM

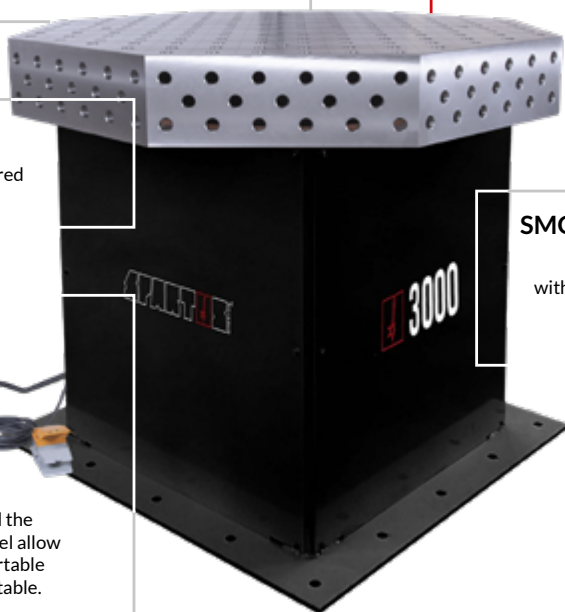

Drilled and chamfered holes 28mm.

INTUITIVE CONTROL

The foot switch and the manual control panel allow for easy and comfortable work with a rotary table.

SMOOTH-RUNNING

Adjustable start with gentle braking ensures smooth rotation during operation.

PRODUCT CODE	ROTARY TABLE	TABLE LOAD CAPACITY	TABLE HEIGHT
SP28C-14-14-RT1000	SPARTUS® 1000	1000kg	700mm
SP28C-14-14-RT2000	SPARTUS® 2000	2000kg	800mm
SP28C-14-14-RT3000	SPARTUS® 3000	3000kg	900mm

Mounted octagonal table top, dimensions 1400 x 1400 x 200mm and weight 650kg.

FERROS WITH ROTARY POSITIONER

ROTATING TABLE TOP 25mm

The table top with a thickness of 25 mm guarantees the durability of the table and resistance to mechanical damage. The table allows the table top to be rotated in both directions by 360°.

EN-GJL-300 CAST IRON

The casting of the top is made of EN-GJL-300 high strength cast iron characterized by high wear resistance.

CHANGING THE TILT ANGLE

The positioner mechanism allows the table top to be tilted up to 90°.

SMOOTH-RUNNING

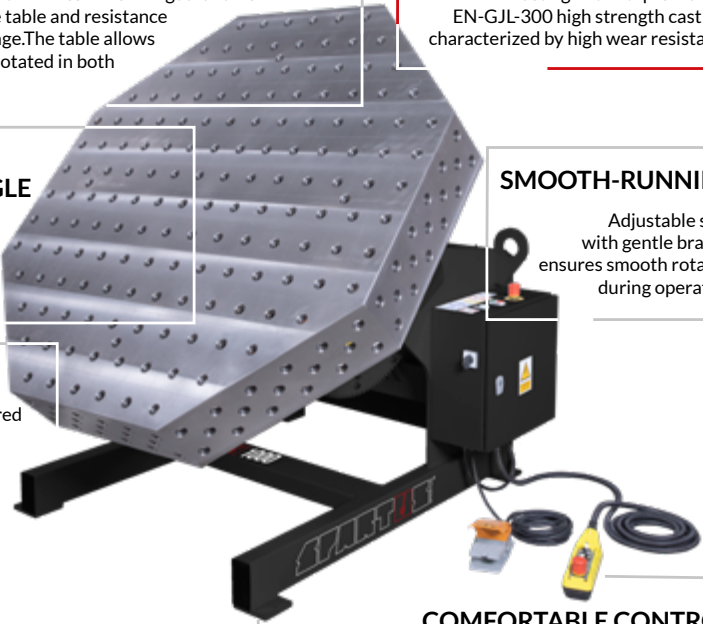

Adjustable start with gentle braking ensures smooth rotation during operation.

D28 SYSTEM

Drilled and chamfered holes 28mm.

Product presentation

COMFORTABLE CONTROL

The foot switch and the manual control panel allow for easy and comfortable work with a rotary positioner.

PRODUCT CODE	POSITIONER	POSITIONER LOAD CAPACITY	TABLE HEIGHT
SP28C-14-14-RP1000	SPARTUS® 1000	1000kg	1080mm
SP28C-14-14-RP2000	SPARTUS® 2000	2000kg	1080mm
SP28C-14-14-RP5000	SPARTUS® 5000	5000kg	1220mm

Mounted octagonal table top, dimensions 1400 x 1400 x 200mm and weight 650kg.

AKCESORIA

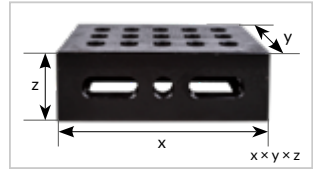

Our offer includes a wide range of accessories to meet your individual needs.
Accessories are available both as individual elements and ready-made sets.

SQUARE SHAPE

are perfect as an extension or widening of the table. At the same time they are the basis for vertical constructions and many combinations with other accessories.

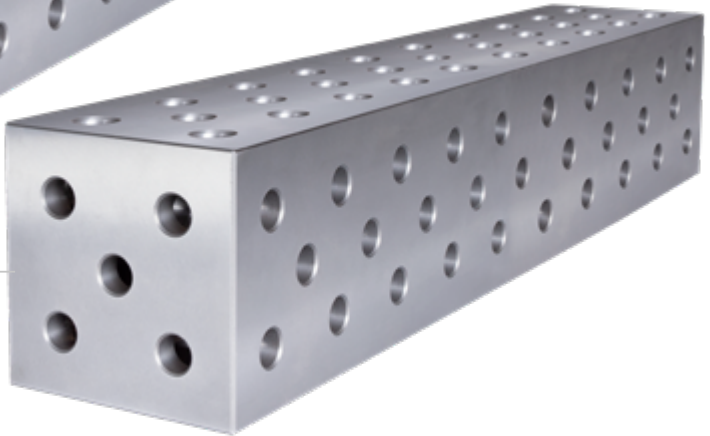

SP010-20-050

500mm × 200mm × 200mm

SP010-20-100

1000mm × 200mm × 200mm

SP010-21-100

1000mm × 200mm × 100mm

SP010-22-030

300mm × 200mm × 100mm

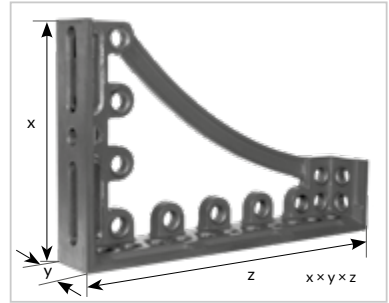

SP010-22-050

500mm × 200mm × 100mm

LOCKING ANGLES AND ANGLE BRACKETS

are used to fix moving parts during heavy duty operations and they can also be an extension of the welding table. Available in right and left hand versions.

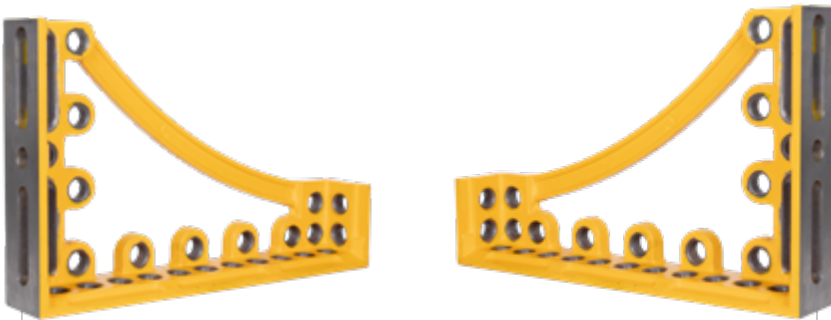

SP010-23-300L

275mm × 100mm × 300mm

SP010-23-300R

275mm × 100mm × 300mm

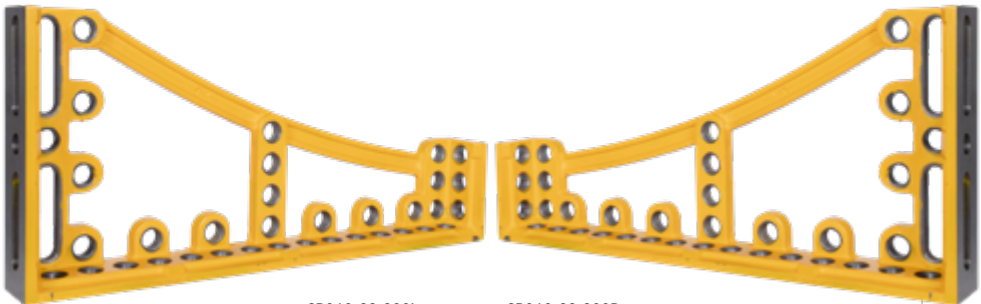

SP010-23-600L

375mm × 100mm × 600mm

SP010-23-600R

375mm × 100mm × 600mm

SP010-23-800L

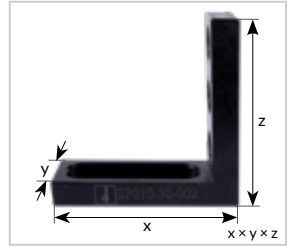

375mm × 100mm × 800mm

SP010-23-800R

375mm × 100mm × 800mm

LOCKING ANGLES AND ANGLE BRACKETS

The use of a combination of holes and slots allows you to build work structures freely. When connecting large components, they are used as an angle block.

SP010-30-002
175mm × 50mm × 175mm

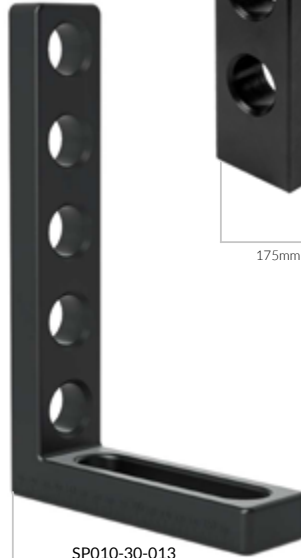

SP010-30-005
175mm × 50mm × 75mm

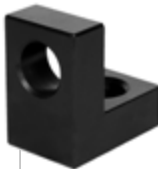

SP010-30-003
175mm × 50mm × 175mm

SP010-30-004
175mm × 50mm × 175mm

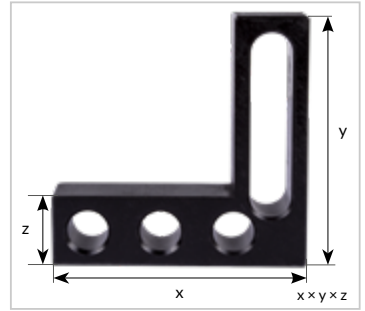

SP010-30-013
175mm × 50mm × 275mm

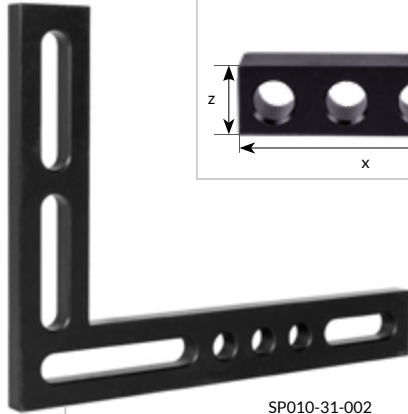

SP010-30-006
75mm × 50mm × 75mm

FLAT SQUARES

The longitudinal slot and the system slots offer an option of permanently clamping, adjusting, positioning and locking the assembly elements.

SP010-31-001
225mm × 325mm × 25mm

SP010-31-002
500mm × 375mm × 25mm

SP010-31-003
225mm × 275mm × 25mm

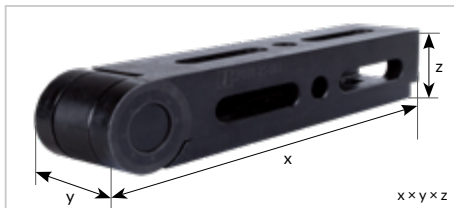

SP010-31-004
175mm × 175mm × 25mm

SP010-31-005
275mm × 175mm × 25mm

UNIVERSAL ADJUSTABLE ANGLE SQUARE WITH CLAMPING

used for clamping components at the correct angle.
Adjustment is possible from 0° to 225°.

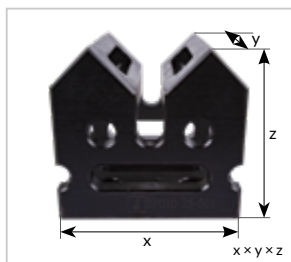

SP010-25-001

500mm x 100mm x 100mm

CORNER CONNECTOR

connects accessories and allows you to enhance the table's working space. Allows you to clamp and extend the construction in any plane.

SP010-24-001

200mm x 200mm x 185mm

CLAMPING SLEEVES

are used for precise positioning of elements at the right angle.
They are perfect for connecting working tubular structures.

SP010-64-001

angular 45° \varnothing 28mm

SP010-64-002

angular short 45° \varnothing 28mm

SP010-64-003

angular horizontal \varnothing 28mm

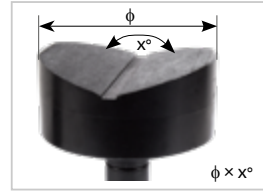

SP010-64-004

angular vertical 90° \varnothing 28mm

PRISMS

are used to connect elements with round profiles and provide stable support for tubular structures.

SP010-65-001A
 $\phi 60\text{mm} \times 90^\circ$

SP010-65-002A
 $\phi 60\text{mm} \times 120^\circ$

SP010-65-004
 $\phi 110\text{mm} \times 120^\circ$

SP010-65-006
 $\phi 60\text{mm} \times 150^\circ$

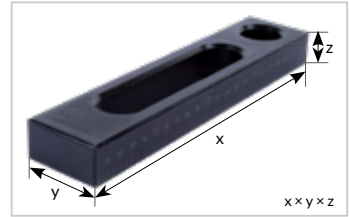

SP010-65-007
 $\phi 110\text{mm} \times 150^\circ$

SP010-65-008
 $\phi 140\text{mm} \times 150^\circ$

STOPS

make it easier to clamp constructions to the table as well as to perform precise and stable positioning of elements during welding.

SP010-50-001
150mm × 50mm × 25mm

SP010-50-002
225mm × 50mm × 25mm

SP010-50-002A
225mm × 50mm × 25mm

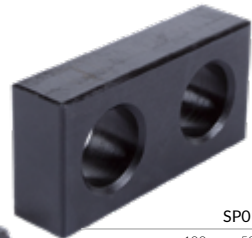

SP010-50-014
500mm × 100mm × 25mm

SP010-50-006
1000mm × 100mm × 25mm

SP010-50-003
300mm × 50mm × 25mm

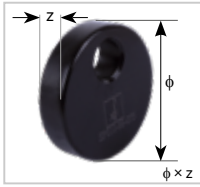

SP010-50-007
100mm × 50mm × 25mm

SP010-50-007A
100mm × 50mm × 25mm

| ACENTRIC TOGGLE LOCATING

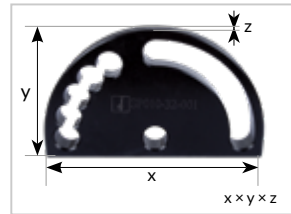

SP010-66-075
 $\phi 100\text{mm} \times 25\text{mm}$

| PLANE ANGLE LOCATOR

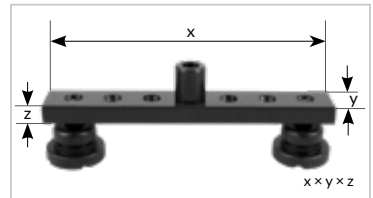

SP010-32-001
 $250\text{mm} \times 150\text{mm} \times 25\text{mm}$

| CLAMPING BRIDGES

for clamping several workpieces of different sizes at two or three points at the same time, as well as for places with hard access.

SP010-63-002
 $185\text{mm} \times 30\text{mm} \times 13\text{mm}$

SP010-63-001
 $185\text{mm} \times 30\text{mm} \times 13\text{mm}$

CLAMPING BOLTS

are used to join accessories. They give an option of joining two or three elements, depending on their length.

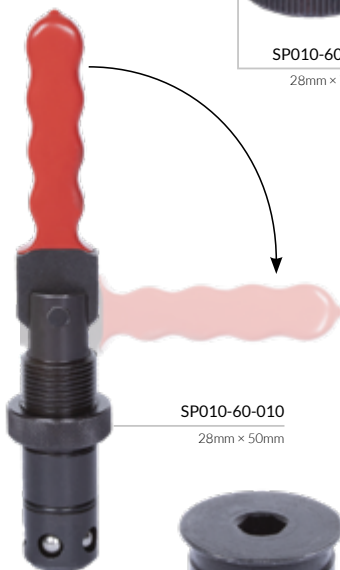

SP010-60-001
28mm × 50mm

SP010-60-002
28mm × 75mm

SP010-60-003
28mm × 50mm

SP010-60-010
28mm × 50mm

SP010-60-102
28mm × 75mm

SP010-60-004
28mm × 75mm

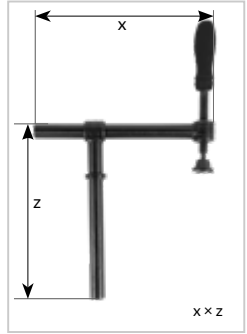

SP010-60-103
28mm × 50mm

SP010-60-101
28mm × 50mm

TOGGLE CLAMPS

effectively lock and immobilize construction elements, at various angles, in the system openings.

SP010-70-001
300mm × 300mm
