

SPARTUS® Pneumatics piston compressors from the SP series are a line of professional compressors for applications in automotive, construction and industrial workshops – wherever durability and reliability are needed. Cast-iron, low-speed compressor units guarantee long-term and trouble-free operation. The low speed of the pump and their efficient cooling system allow to obtain good quality air from the very beginning.

Advantages of SPARTUS® Pneumatics from SP series:

- cast iron, slow-running compressor pumps;
- a high-class tank, European production with necessary documents to be reported in the UDT;
- reliable Condor MDR with thermal protection;
- high-class tooling;
- includes road wheels or shock absorbers.

Contract Technical Parameters

TANK	CYLINDERS	COMPRESSION	CAPACITY	PRESSURE	POWER	INPUT	WEIGHT	DIMENSIONS
