

Piston compressors

DURABILITY AND RELIABILITY

SPARTUS® Pneumatics piston compressors

from the SP series are a line of professional compressors for applications in automotive, construction and industrial workshops - wherever durability and reliability are needed. Cast-iron, low-speed compressor units guarantee long-term and trouble-free operation. The low speed of the pump and their

efficient cooling system allow to obtain good quality air from the very beginning.

Advantages of SPARTUS® compressors from SP series:

- cast iron, slow-running compressor pumps;
- high-class tooling;
- includes road wheels or shock absorbers.
